# NIGERIA

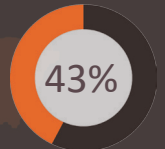

10.5 million

Children out of school (the highest in the world)

Unemployed Youth

Girls married before they are 18

## WHO WE ARE

We are the Grace Foundation and we exist to break the poverty cycle for Nigerians, we exist to create hope.

The two-generation approach utilized by Grace Foundation focuses on creating opportunities not just for the child but the whole family.

We are not trying to change their way of life, but rather we are providing opportunities for them to change their own lives.

We help without creating dependency.

This CAN CHANGE.  
This MUST CHANGE.  
We are MAKING THE CHANGE.

## OUR GOAL

Is simple: We want to alleviate poverty in Nigeria through education and see families live independent and self-determined lives.

# WHAT WE DO

We are passionate about what we do and our work is based on actions rather than just talk and can be split into three areas.

1

## Classroom to Community Network

The current learning environment in many Nigerian public schools leads to students dropping out which contributes to the poverty cycle as they often then lack the skills and knowledge to be able to contribute to the economy.

We are changing this by investing in public primary and secondary schools to help them to enhance their teaching methods and curriculum and improve their facilities.

2

## Youth Employment, Enterprise Training & E-Learning

Education is the beginning, but it is also important to provide support as young people transition to the workforce. Many young Nigerians lack the resources required to be able to find paid employment or start their own business.

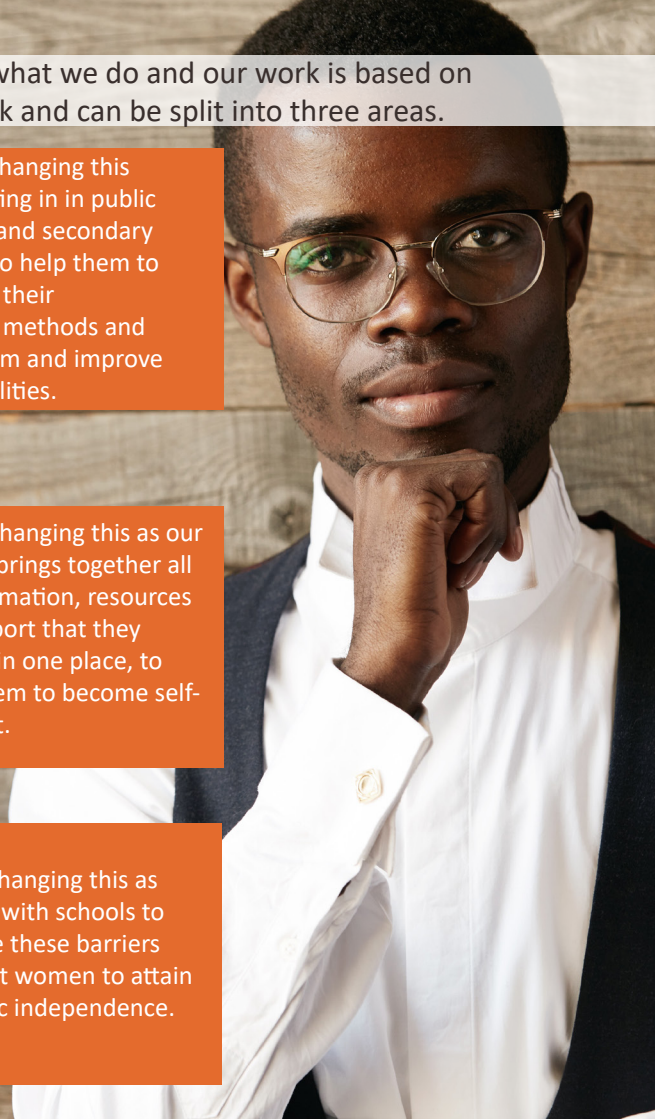

We are changing this as our website brings together all the information, resources and support that they require, in one place, to assist them to become self-sufficient.

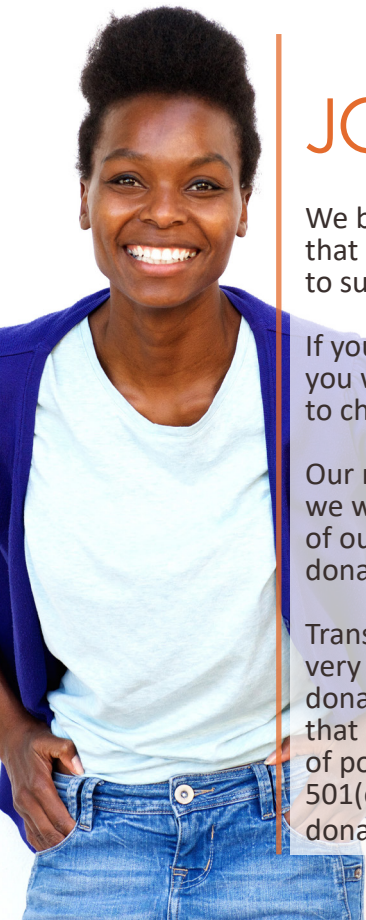

3

## Girls' Education and Women's Empowerment

In the past, girls have often faced higher barriers when it comes to receiving a quality education, while women continue to be challenged by social and economic inequities.

We are changing this as we work with schools to eliminate these barriers and assist women to attain economic independence.

# JOIN US

We believe everyone deserves a chance and that with the right tools everyone has a chance to succeed.

If you share our beliefs, if you believe in us, if you want to help the youth of Nigeria to be able to change their world, then join us now!

Our results prove that our approach works and we want to go further. If you want to be a part of our vision then please consider making a donation.

Transparency and clear accountability are very important to us. We guarantee that your donation will go directly to fund the programs that are making an impact in breaking the cycle of poverty. Grace Foundation is a registered 501(c)3 organization in the state of Florida. All donations by U.S. residents are tax deductible.
